

## CTU 1601 - Maxinet I/O card

**Input / Output card for Maxinet system  
8 outputs 230V, 8 inputs dry contact,  
3 Temperature readings**

### General

The CTU-1601 is an Input / Output (I/O) card for Maxinet systems. It has 8 inputs, dry contact to view the status of various devices and 8 outputs 230V 0.5A, to manage general devices from the software, such as:

- Air compressor
- Chiller
- Fresh air damper
- Lights
- Outdoor lights
- Extractors
- Fans

The 8 outputs can be weekly programmed from the software very easily.

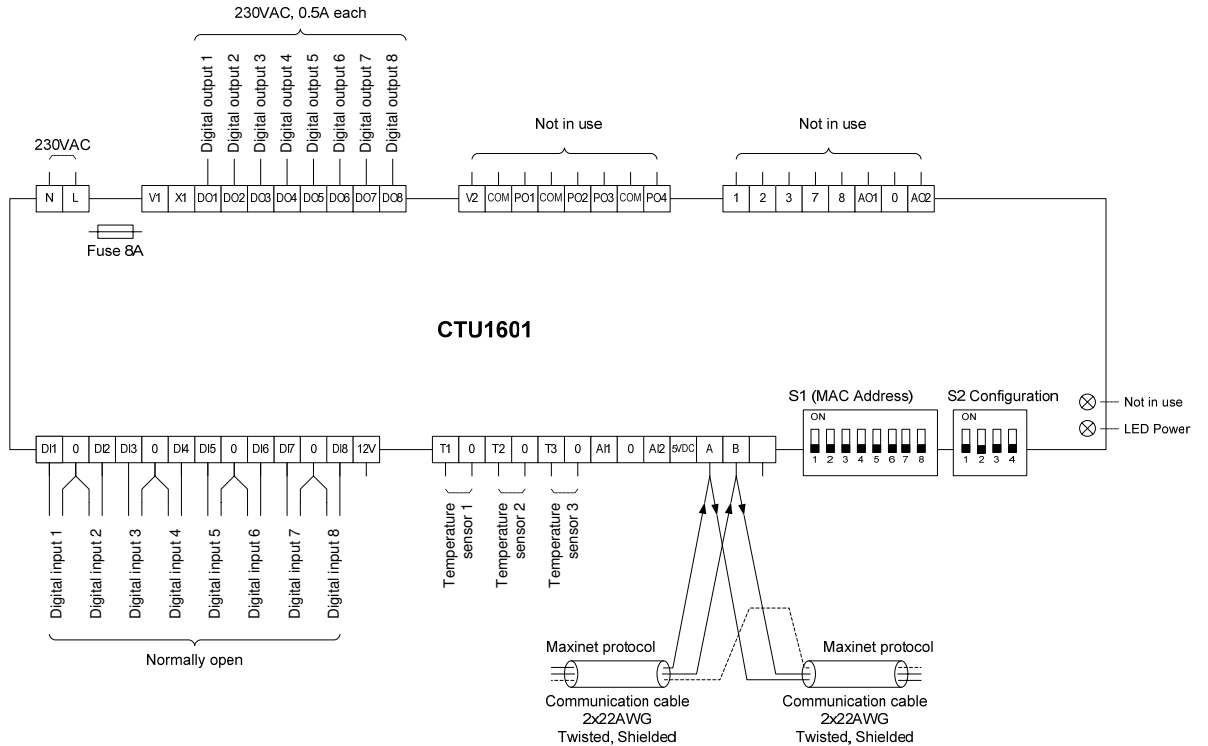

3 Temperature sensor inputs, enabling to see temperatures wherever needed.

### Features

- 8 outputs – 230 V, 0.5 A
- 8 inputs – volt free – dry contact
- 3 Temperature readings
- Works with Maxinet Software
- Easy connection to Din Rail
